Louisville, Kentucky

2023 TSA National Conference

**Participant ID:** [redacted]

**Photograph 1 Statement**

Unedited image

Technical information

This photo was taken on a Canon EOS Rebel T2i. It was taken with an f-stop of 4.5, an exposure time of 1/400 second, an ISO speed of 6400, and a focal length of 29 millimeters.

Challenge application

I chose to illustrate the panic every TSA member has felt at some point: getting to an event on time when you're way too far away. Jumping into action and rushing past everyone else in the halls with adrenaline pumping, the world seems to freeze as the only thing that seems to matter is getting your submission in.

Editing process

To edit this photo, I took the following steps:

- Reduced noise
- Straightened and cropped
- Increased exposure and contrast
- Adjusted highlights (-), shadows (+), whites (+), and blacks (-)
- Adjusted white balance (cooler tones)
- Decreased saturation in reds, blues, and purples
- Brightened the girl on the right and gave her slightly warmer tones
- Added black vignette

Unedited image

Technical information

This photo was taken on a Canon EOS Rebel T2i. It was taken with an f-stop of 3.5, an exposure time of 1/320 second, an ISO speed of 5000, and a focal length of 18 millimeters.

Challenge application

I decided to show movement at the national conference by showing the pure excitement when you see your team made it to the semifinal round of your most important competition. There's nothing quite like the moment when you see your team number on the results board, then double-, triple-, and quadruple-check before celebrating loud and proud.

Editing process

To edit this photo, I took the following steps:

- Reduced noise
- Increased exposure and contrast
- Adjusted highlights (-), shadows (+), whites (+), and blacks (-)
- Adjusted white balance (slightly cooler tones)
- Adjusted saturation by color groups
- Added black vignette

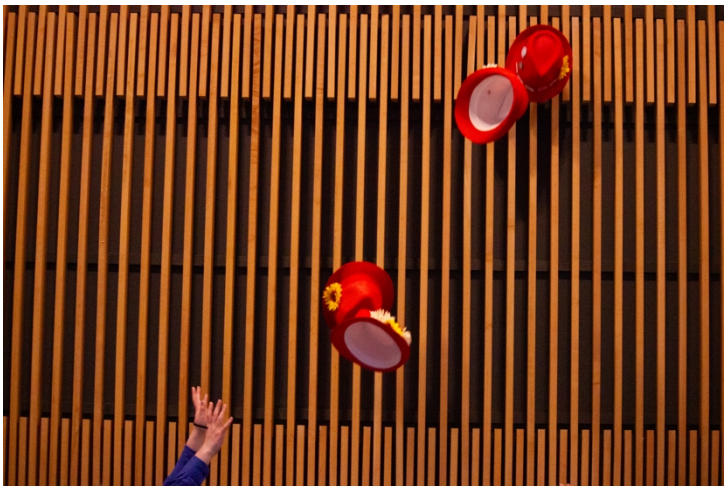
**Photograph 3 Statement**

Unedited image



Technical information

This photo was taken on a Canon EOS Rebel T2i. It was taken with an f-stop of 4.0, an exposure time of 1/400 second, an ISO speed of 6400, and a focal length of 55 millimeters.

Challenge application

A new tradition of one of TSA's state delegations is giving all their national conference attendees matching hats, and who doesn't like to toss a hat in the air? Whether it's a celebration of a momentous occasion or just a quick team bonding moment is up to you, but I chose to illustrate this fun motion to meet the challenge criteria.

Editing process

To edit this photo, I took the following steps:

- Reduced noise
- Adjusted distortion (to create straight even lines) and cropped to straighten
- Increased exposure, decreased contrast
- Adjusted highlights (-), shadows (+), whites (+), and blacks (-)
- Decreased overall saturation, then brought some back in reds, yellows, blues, and purples
- Added black vignette

**Thank you for your time, judges!**

**Resources**

I used a Canon EOS Rebel T2i camera to take these photos.

I culled some of my photos using Narrative Select Pro. To edit my photos, I used Adobe Photoshop Lightroom on an Apple MacBook Pro laptop computer.

To edit this portfolio, I used Microsoft Word. I converted it to a PDF document and combined it with other attached pages using Adobe Acrobat to generate my final portfolio file.

**Documents**

Following this page are these attached documents:

1. Student Copyright Checklist
2. Photo Consent and Release forms
